DEBIT/CREDIT
CARD PROCESSING

Many churchgoers no longer carry cash or checkbooks and are looking for more convenient ways to give. They prefer debit/credit card giving because it lets them express their generosity the same way they currently pay for goods or services or donate to other organizations.

Your church can easily meet their needs by offering debit/credit card processing from Vanco Payment Solutions. Your members and guests can use their cards to make one-time and recurring donations to any number of funds. They can even pay for Vacation Bible School, special events, school tuition, daycare and more.

Improve donation consistency

Members can quickly register for one-time or recurring gifts or payments with a simple paper form. Or, you can encourage their generosity by offering them other convenient e-Giving options such as our modern Give+ suite of electronic giving options or our hosted online giving pages. As a PCI Level 1 Compliant Service Provider, we maintain the highest standards of data security, and we reliably deposit contributions directly into church accounts as soon as the next business day.

Easy donation management

- **Reporting.** Our full reporting suite provides detailed reports for all of your donations and integrates with many of the leading church management software systems, providing you with a seamless experience.

- **Account Update Service.** The system will automatically update debit and credit card information when the card expires or a new card number is issued. This feature is provided to the church at no charge and helps ensure that donations are not interrupted.

- **Offset Feature.** Include an optional check box that allows debit/credit card donors the choice to give an extra percentage to help your church offset processing fees.

With low rates and no start-up costs or long-term contracts, you can get started today with this simple e-Giving solution, then grow your giving program with a variety of secure, convenient Give+ options from Vanco.

Did you know that over 30% of churchgoers would give by debit/credit card if this option was available at their church?
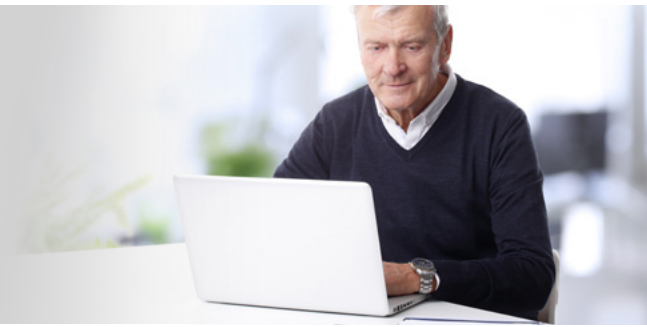

ACH PROCESSING

ACH processing provides a secure, simple electronic transfer of an authorized payment from an individual's checking or savings account into your church's bank account.

A smart and cost-effective choice, ACH is ideal for automating recurring gifts and is easy to implement for churches of any size. Your members or guests can fill out and sign a paper authorization form or initiate one-time or recurring gifts through GivePlus Online, GivePlus Mobile, or our hosted online giving solution.

- Improve donation consistency with recurring gifts

- Reduce administrative demands on church staff

- Receive unmatched service with dedicated giving coaches and live 24/7 U.S.-based support

Secure 4 Step Process

Vanco Processing Engine

PCI Level 1 Compliant

1. Sign Up

Members or guests fill out and sign a one-time authorization form, or sign up using GivePlus Online, GivePlus Mobile or hosted online giving.

2. Enter information

If members sign a paper authorization form, church staff manually enters information into MyVanco Service Center.

Note: It's faster for members and easier on staff to sign up using GivePlus Online, GivePlus Mobile or hosted online giving because this step is automated.

3. Process donation

Donation amount is processed in Vanco's secure, environment on the scheduled date.

4. Deposit donation

Funds are deposited electronically into the church bank account as soon as the next business day.

- The church can view, download or import deposit reports 24/7 from MyVanco Service Center.

- Member receives donation details on their bank statement.
